## INTRODUCTION

MARIJUANA IS A PLANT OF MANY MYSTERIES. ITS LONG HISTORY IS FULL OF MYTHS AND LEGENDS, RUMOURS AND SECRETS, RIDDLES AND ENIGMAS.

IN THIS SLIM VOLUME CANNABIS CULTURE ILLUMINATES THE ANCIENT CANNABIS PLANT, AND GIVES YOU THE CHANCE TO TEST YOUR CANNABIS COGNIZANCE AND MENTAL METTLE.

THIS COMPENDIUM OF CANNABIS CONUNDRUMS AND PERPLEXING POT PUZZLES IS A TREASURE-TROVE OF HIDDEN KNOWLEDGE AND TRIVIA TIDBITS. YOU MIGHT CONSIDER YOURSELF A MARIJUANA MAVEN, A CANNABIS CONNOISSEUR OR A HEMP EXPERT, BUT THE TRUE DEPTH OF YOUR HERBAL LORE WILL BE REVEALED BY THE BAFFLING BRAINTEASERS BETWEEN THESE COVERS.

THE GREATEST MARIJUANA MYSTERY OF ALL IS WHY WE HAVE ALLOWED THIS WONDER-PLANT TO BE BANNED FOR SO LONG, AND WHEN WILL IT ONCE AGAIN GROW FREE?

SO WHEN YOU'VE WOUND YOUR WAY THROUGH THIS CURIO OF CANNABIS CURIOSITIES AND BAFFLING BONG-HIT BEWILDERMENTS, WHY NOT SHARE YOUR EXPANSIVE KNOWLEDGE OF ALL THINGS MARIJUANA? PEN A MISSIVE TO YOUR ELECTED OFFICIAL, HAVE A LONG TALK WITH MUM AND DAD, OR PERFORM SOME OTHER GOOD WORK TO EDUCATE THOSE WHO, IN THEIR IGNORANCE, WOULD IMPRISON OUR CULTURE AND DESTROY THIS MOST IMPRESSIVE, BENEFICIAL AND SALUBRIOUS OF PLANTS.

LET THE POT PUZZLING BEGIN!

## FARMER JOHN DIVIDES HIS FIELD

For many years, Farmer John had been growing 3 strains of marijuana in 12 secret patches scattered across his property. When it finally came time for him to retire, he wanted to divide his field up among his 4 children, so that each would have a lot of the same size and shape, each containing 1 of each of the 3 different strains.

After smoking each of the 3 strains and pondering the situation, Farmer John realized how he could evenly divide the field and strains with six identical straight lines. Maybe a joint would help you figure out how Farmer John did it.

## Dealer Dave's Dilemma...

Dealer Dave wakes up after a late party and realizes he is late to meet his connection! Even worse, Dave has a very unique problem.

A few days earlier, Dave bought a bag of Afghani and a bag of Skunk #1. Even though they have quite different effects, they look and smell exactly the same. Dave took out some from each to make his own combo bag, and then had carefully labeled all three bags.

Last night he threw a party, and that's where Dave's troubles began. All he could remember after the bong-a-thon was that he had a brief paranoia attack, and decided to change the labels on his 3 bags, so that no bag had the correct label.

Now Dave has to deliver the bag of Afghani, leave the Skunk #1 for his roommate, and hide his personal bag under his pillow. The only way to tell the buds apart is to smoke a joint, and Dealer Dave only has time to smoke one. What should Dealer Dave do?

Farmer Tess is nearing retirement and wants to divide her marijuana plants evenly among her 8 children. She is only growing one strain, a fantastic Northern Lights x Kush, at 8 hidden locations in her field.

Since Tess' mushroom trip in '68 she's been into sacred geometry, and so not only must each lot be of identical size and shape, but their boundaries must conform to the grid.

## Lazy Larry's 50% SOLUTION

Lazy Larry was hired by Grower Jim to plant his seedlings in a hidden field. Jim asked Larry to plant 5 rows of seedlings, with 4 seedlings in each row.

Larry thought that planting 20 plants was too much work. After smoking a joint and pondering the situation, Larry realized how he could do what Jim had asked, yet cut his labor in half.

Lazy Larry planted 5 rows of seedlings with 4 seedlings in each row using a total of only 10 seedlings.

How did Lazy Larry do it?
